CUSTOMER: ATHENA MANUFACTURING, LP

ATTN: Dustin Drab
drab.dustin@athenamfg.com

Hello Dustin Drab:

I am pleased to submit the following budgetary prices for your review.

PART ITEMS

Line	Part Number	Process	Description	Part Price
1	01861981-051 Material: 300 Series Stainless Steel	Process: Passivation Spec(s): AMS2700 Method 1 All Surfaces		\$98.50
2	01861981-053 Material: 300 Series Stainless Steel	Process: Passivation Spec(s): AMS2700 Method 1 All Surfaces		\$72.50

Estimated Delivery: 6-11 working days per typical lot (other delivery times may be arranged)

Freight: FOB our facility

Terms: Net 30 Days (standard, unless otherwise noted or discussed)

The components must be new, unused and free from foreign contamination. The Customer must advise Harrison if any component is fabricated or assembled with dissimilar materials. Many alloys are not compatible with passivation processes. The materials of construction must be communicated by the Customer and acknowledged by Harrison. Please note that all non-permanent part markings will be removed by this process. If heat or serialized traceability is to be maintained, the parts must have permanent markings or be identified with stainless steel tags which will accompany your parts through the process steps. Paper tag identification cannot not be maintained through the chemical processes. To the maximum extent permitted by applicable law, neither party, nor its affiliates, will be liable for any incidental, consequential, special, indirect, exemplary or punitive. The Customer will supply the material that is to be passivated and any special packaging or crating that may be required. For the first order for all new customers, payment will be due prior shipment.

** Please note that our minimum price per purchase order is \$200.00.

Please call if you have any questions. We look forward to working with you on this project.

Sincerely,

Matthew Buck
